Assignment 2 - HTML

Create 5 html pages. The first page should be named **index.html** and have the following content:

Your name (using a heading 1).
Your student ID (matrícula, using a heading 3).

A picture of yourself (Max size 1MB and max width 500px X 500px).

The first of the 5 pictures:

Make this picture 300px wide (height should adapt proportionally).

Make this picture a link. When clicked, this link should open page number 2 **in the same window**.

An order list and an unordered list listing **your** name and lastname, favourite music and food. →

(The list's should be nested as in the picture)

- **Mis datos**
    - Nombre: Luis
    - Apellido: González

- **Mi música favorita**
    1. Joaquín Sabina
    2. Kevin Johansen
    3. Keaton Hensin
    4. Lila Downs
    5. Jaymes Young

- **Mi comida favorita**
    a. Tacos
    b. Mariscos
    c. Pasta
    d. Sushi
    e. Frutas

The following table:

| | Column 1 | Column 2 | |
		Column 2a	Column 2b
My table caption			
Row 1 **Row 1a**	123	456	789
Row 1b	123	456	789
Row 2	123	456	789

From the 2nd to the 5th page you will include the rest of the images. All of them should be a link to the next page, making the 5th page image link to index.html:

index.html → 2.html → 3.html → 4.html → 5.html

IMPORTANT: Remember that the assignment **MUST** be uploaded in Blackboard in the correct format (details on next page) using the reserved assignment space. NO assignment will be received nor graded outside Blackboard (i.e. E-mail).

Instructions for assignments zip format delivery (this applies to ALL semester assignments)

IMPORTANT: Please upload ALL your assignments in Blackboard by following these steps::

1. Create a folder for the assignment, name it with your student id ONLY: A00xxxxxx o A0xxxxxxx (replacing the x's with your correct ID).

2. Inside it, put all the code you need (webpages, images, etc.) Once completed, zip the folder.

3. Upload the zip into Blackboard..
